

The First Batch of International Professional Engineers (India) Awarded Recognition

The Institution of Engineers (India) was granted full membership of the Engineers Mobility Forum (EMF) for India at the International Engineering Alliance General Assembly Meeting at Kyoto, Japan in June 2009. The Agreement with the Engineers Mobility Forum is an International Recognition Agreement for Professional Engineers between the engineering organizations in the member jurisdictions, which creates the framework for the establishment of an international standard of competence for professional engineering and then empowers each member organization to establish a section of the International Professional Engineers (IntPE) Register. Engineers on the International Register are free to practice engineering in member countries and are recognized at par with local Professional Engineers.

The first batch of twenty-nine Professional Engineers of various engineering disciplines after qualifying through rigorous examination, scrutiny and interview were qualified and awarded recognition as International Professional Engineers-IntPE(India) by the Institution of Engineers (India) as per details below.
